

12 March 2015

RB Patel Group Limited

MARKET ANNOUNCEMENT

RB Patel Group Limited

There was a fire in one of the buildings at our RB JetPoint Complex in Martintar Nadi in the early hours of Wednesday 11 March 2015. The fire was quickly identified and has not caused any significant damage to property. We have notified our insurer QBE Insurance (Fiji) Ltd of the incident.

The fire was restricted to the electrical switchboard room of the Stage 2 building housing office and retail tenants and has damaged the power distribution cable network for that building and to a very restricted extent that of the Life Cinema building. As a precautionary measure the Cinemas will remain closed until further notice.

Our electrical contractors have inspected the extent of the damage and started work on the restoration. A timeline for the temporary restoration of the electrical supply to the properties is being finalised and will be advised once confirmed.

The financial implication of the fire is yet to be quantified but the Company has insurance cover for this purpose.
